

NATO STOCK NO. 9150-32-083-8144

VAPPRO 818 CLP

PROTECTS CARBON STEEL, STAINLESS STEEL, ALUMINIUM, COPPER AND ITS ALLOY

Conforms to MIL-SPEC. MIL-PRF-63460D & MIL-C-372

VAPPRO 818 CLP

Gone are the days where black greasy hands and fatigues rule the armoury. Small arms and light weapons have never stayed so clean and greaseless before.

This is made possible by a revolutionary 3-in-1 cleaning and anticorrosion agent known as Vappro 818 VCI CLP. Carbon and light corrosion deposits are removed with one swipe, leaving behind a thin film of corrosion inhibitor that passivates the weapons from corrosion. Vappro 818 VCI CLP is non-greasy and easy to apply. When applied, Vappro 818 VCI vapour migrates and passivates all recessed areas and cavities. It cleans the mechanisms and gun cores speedily and effectively. Best of all, once applied, Vappro 818 CLP does not require removal. Arms are at the ready at all times.

Use Vappro 818 VCI CLP for the cleaning of small arms, automatic weapons, howitzers, battle tank's gun barrel, naval and aircraft weapons before and after firing for optimum corrosion protection.

Cleaning and preparation of 0.5 caliber Brownings with Vappro 818 CLP before preservation.

Cleaning of GPMG(General Purpose Machine Gun) with Vappro 818 CLP.

Before Cleaning Barrel

Cleaning and preservation of M16s using Vappro 818 CLP.

After Cleaning Barrel

A preserved 0.5 mm Browning M2 Machine Gun after cleaning with Vappro 818 CLP and Arm-Gard.

DESCRIPTION

Vappro 818 CLP is a revolutionary cleaning and anticorrosion agent, which removes carbon, and light corrosion deposits while leaving behind a thin film of corrosion inhibitor that passivates the weapons from corrosion.

Vappro 818 CLP is an ozone and environmentally friendly cleaning agent. It enchances the operations readiness of the weapons by providing optimum protection of the weapons from corrosion.

It was specially developed for the cleaning of small arms, automatic weapons, Naval and aircraft weapons before and after firing.

PHYSICAL PROPERTIES

Flash Point 80°C

Specific Gravity 0.76

Appearance Clear and transparent

free flowing liquid

Colour Amber Brown

FEATURES & BENEFITS

- rust and Leaves a thin film of corrosion inhibitors.
- Cleans the mechanism and gun cores speedily and effectively.
- * Reduces need for multiple chemical agents.
- ★ Leaves temporary protective coating, providing anticorrosion for up to several weeks.
- ★ Ozone & environmentally friendly.
- * Reduces chemical consumption and costs.
- ★ Temporary preservation for metallc item.
- ★ VCI Vapour migrates and passivates all recessed areas and cavities.
- ★ No need to remove VCI protection, eliminating processing steps.
- **★** Enhances operation readiness of the weapon.
- ★ Easy to apply.

Cleaning of Howitzer Gun Barrel with Vappro 818 CLP.
